

DNA Discovery Kit

Component Tracking Information

In accordance with the US Consumer Products Safety Improvement Act of 2008, which strengthened regulations on products intended for use by children 12 and under, 3D Molecular Designs (3DMD) is pleased to comply with Tracking Label regulations. These regulations require 3DMD to track the production location of each component in every kit.

All of 3DMD's products packaged on or after August 14, 2009 (effective date of the tracking regulation), have a Tracking Label on the outside of the white box or plastic bag including: General Information about Production Location, a Tracking Number, and the Production Date. The detailed production location information is listed below.

If you have any questions about our tracking information, or our regulation compliance, please contact us at 414-774-6562 or contactus@3dmoleculardesigns.com.

Tracking Number: DNA20090814

Effective Date: 8/14/2009
